Strategy

The Tandem Conservative Portfolio seeks to protect principal by investing in lower-risk securities with less fluctuation such as fixed income and money market securities. A smaller portion of the portfolio is invested in equities to help offset inflation. With a balance of 30% of assets in equities and 70% of assets in fixed income and money market securities, this portfolio is suitable for investors who:

- Have a shorter-term timeframe or conservative level of risk
- Seek stable returns with some capital appreciation
- Seek principal preservation and less loss over the investment period

Advisor Profile

Tandem Wealth Advisors is a registered investment advisor managing four risk-based, proprietary exchange-traded fund (“ETF”) portfolios available to advisors and retirement plans through Mid Atlantic ManagerxChangeSM and ModelxChange[®] platforms. Tandem’s portfolio strategies and support give advisors the ability to provide unique investment solutions tailored to each client’s individual investment goals, objectives and risk tolerance.

Tandem seeks competitive performance while controlling risk through a disciplined, strategic approach to asset allocation. Our commitment to keeping portfolio costs as low as possible translates to better capital preservation and unhindered returns for investors. Our traditional yet forward-thinking investment discipline combines asset allocation, qualitative research, quantitative analysis, risk management, and relative valuation in broadly diversified portfolios.

Retirement plan participants face numerous challenges today. One of the primary issues is that participants are usually not qualified to make prudent investment decisions. Tandem’s risk-based portfolios have helped participants achieve returns that are stable, understandable and repeatable without unnecessary levels of risk since 2011.

Disclosures

Tandem Wealth Advisors is a registered investment advisor. Information presented is for educational and informational purposes. Risk Associated with Investing in the Tandem ETF Portfolios

No investment strategy to include asset allocation and diversification protects against loss and/or volatility. There is no guarantee that this or any other investment strategy will perform well during adverse market conditions nor be suitable for every investor. Actual outcomes may vary. Past performance does not guarantee future results. The investment return and principal value of any investment may fluctuate, and an investor’s shares may be worth more or less than the original cost at any given time or upon redemption. Before investing, investors should consider the investment objectives, expenses, and risks of a portfolio on their own or with the help of an investment professional.

This summary is neither investment advice nor a recommendation to purchase or sell any security. Information presented is believed to be reliable; however, its accuracy cannot be guaranteed. Any opinions expressed herein are given in good faith, are subject to change without notice, and are only current as of the stated date of their issue. Performance data quoted represents past performance based on a specific period of time without guarantee of future results. Data is updated monthly, quarterly and annually.
