Tandem Conservative Fund® – Institutional Class

CUSIP 19421F412

FUND FACTS
DATA UPDATED SEPTEMBER 30, 2023

Strategy

The Tandem Conservative Fund seeks to protect principal by investing in lower-risk securities with less fluctuation such as fixed income and money market securities. A smaller portion of the fund is invested in equities to help offset inflation. With a balance of 20% of assets in equities and 80% of assets in fixed income and money market securities, this fund is suitable for investors who:

- Have a shorter-term timeframe or conservative level of risk
- Seek stable returns with some capital appreciation
- Seek principal preservation and less loss over the investment period

Disclosures

The investment strategy used in the Tandem Conservative Fund has also been used in a separate investment vehicle called the Tandem Conservative Portfolio since 2011. Performance shown represents different products that employ the same strategy, blending Tandem Conservative Portfolio performance before January 1, 2021 with Tandem Conservative Fund performance after January 1, 2021. The blended strategy performance provides additional information on how the strategy used in the Tandem Conservative Fund has performed historically. Tandem Conservative Portfolio and Tandem Conservative Fund performance may differ due to fees. The blended performance does not necessarily represent what investor returns would have been using the Tandem Conservative Fund.

Information presented is for educational and informational purposes. Investments involve risk, such as the loss of principal, and are not guaranteed. Additional information on and disclosures from Tandem are contained in the firm's ADV Brochure Part 2A, which is available upon request as well as online at https://adviserinfo.sec.gov/. When fulfilling the role of designated investment manager, fees are fully disclosed in accordance to ERISA 408(b)(2) and ERISA 404(a)(5) published guidelines. Performance is net of fee. Cash includes money market funds, bank deposits, and other cash-equivalent instruments. Tandem selects between available cash investments based on credit quality, FDIC insurance, yield, expense ratio, and other factors. Cash investments may vary based on custodian and availability.

The Tandem Conservative Fund uses the Morningstar Conservative Target Risk TR USD ("Conservative Target") as its benchmark. The Conservative Target is a broadly diversified index that uses a portfolio asset allocation of Morningstar constituent indices (stocks, bonds and cash) to maintain a target level of equity exposure of 20%. The Conservative Target is reconstituted annually and rebalanced quarterly.

Risk Associated with Investing in the Tandem Collective Funds

No investment strategy to include asset allocation and diversification protects against loss and/or volatility. There is no guarantee that this or any other investment strategy will perform well during adverse market conditions nor be suitable for every investor. Actual outcomes may vary. Past performance does not guarantee future results. The investment return and principal value of any investment may fluctuate, and an investor's shares may be worth more or less than the original cost at any given time or upon redemption. Before investing, investors should consider the investment objectives, expenses, and risks of a fund on their own or with the help of an investment professional.

This summary is neither investment advice nor a recommendation to purchase or sell any security. Information presented is believed to be reliable; however, its accuracy cannot be guaranteed. Any opinions expressed herein are given in good faith, are subject to change without notice, and are only current as of the stated date of their issue. Performance data quoted represents past performance based on a specific period of time without guarantee of future results. Data is updated monthly, quarterly and annually. Current returns may be either higher or lower.
